

**Dear Employee,**

Beginning October 1, 2013, you will be able to purchase health insurance through the ACA Health Insurance Marketplace. This government sponsored insurance exchange has been established to provide you with access to health plans that comply with the ACA's mandate for individuals to obtain health insurance, or face the possibility of being penalized. If you qualify, the federal government will pay a portion of your premium, but this is only available if you enroll through the online marketplace (available at [www.vensurance.com](http://www.vensurance.com)). Enrollment opens October 1, 2013 for coverage starting January 1, 2014 (Open Enrollment lasts for 6 months, so you must enroll by March 31, 2014).

To learn more about the ACA and to apply for coverage, please visit our insurance agency partner's website [www.vensurance.com](http://www.vensurance.com) and click on the "Individual Coverage" icon.

You may also call us at **1-800-409-8958** and we will help you get started.

Sincerely,

Vensure Employer Services
